TO HOLDERS OF THE TECHNICAL PUBLICATIONS INDEX TPI-SM-01

**LETTER OF TRANSMITTAL FOR REVISION No. 5**  
**MAR 27/15**

This is the Letter of Transmittal for the Technical Publications Index, TPI-SM-01/SAT/2015.

Read the EMBODIMENT INSTRUCTIONS that follows very carefully.

EMBODIMENT INSTRUCTIONS

1. If you have a copy of the Technical Publications Index, TPI-SM-01/SAT/2014, Mar. 28/14, replace it with the one supplied with this letter.
2. Discard the superseded Technical Publications Index.
3. Keep this Letter of Transmittal with the new Technical Publications Index.
4. Do a check of the Technical Publications Index to make sure that the manuals you have are there and their dates agree with those in this index.
5. The manuals that are not included in this index are OBSOLETE and CANCELLED. If you have one of these CANCELLED manuals, DESTROY it.
6. Do not use a CANCELLED manual for the maintenance work. If you started your maintenance work with a CANCELLED manual, complete your work with that manual. Then, DESTROY the manual immediately.
7. Write first to the Aircraft Design Authority and tell it that you do not have a valid manual.
8. Write also to Product Support of Secondo Mona and ask for instructions. Secondo Mona will give you a quotation for a new manual.
9. If you have questions about the manuals, send them to:

## INTRODUCTION

This brochure details the list of Technical Publications issued by Secondo Mona S.p.A. to enable the operators to perform maintenance work on Secondo Mona equipment.

The list is complete and reflects the current library status at Secondo Mona.

In line with other Companies, Secondo Mona supplies Technical Publications where contractually committed.

Not all the equipment designed and manufactured by Secondo Mona are therefore covered by Technical Publications. If an equipment is not listed in this brochure, this means that no Technical Publications are available.

Copies of the Technical Publications listed in this Index can be purchased directly from Secondo Mona. This however may not apply for military publications which – although listed in this brochure – cannot be distributed without obtaining the necessary permission from the relevant military authority.

This Index has also the purpose to assist the current holders of the Technical Publications to check that their copies are to the latest revision standard.

Companies which have been sub-contracted to perform maintenance on Secondo Mona equipment should obtain the relevant Technical Publications from the operator concerned and make sure that all revisions received by the operator are transmitted to them.

Secondo Mona will revise and update this index at regular intervals depending on the changes occurred during the period.

*Please address all queries regarding this index and other technical publications to:*
